PROFESSIONAL SUMMARY

Motivated Software Engineering student with expertise in full-stack development, cloud computing, AI-assisted coding, and mobile app development with Flutter. Skilled in building React.js frontends, Node.js/.NET backends, managing MongoDB and SQL databases, and deploying mobile apps. Microsoft Azure certified and recognized as a top-performing student. Experienced in hackathons, internships, and professional projects, with a focus on clean, maintainable code and scalable applications. Currently gaining hands-on experience through Work Integrated Learning at Coast IT (PTY) Ltd.

WORK EXPERIENCE

Software Engineering Intern

Coast IT (PTY) Ltd, Remote

November 2025 – December 2025

- Developing mobile applications using Flutter for cross-platform deployment.
- Collaborating on full-stack development projects and applying Agile methodologies.
- Enhancing skills in coding, testing, and project delivery under mentorship.

Web Developer Intern

CodeCatalyst, Remote

Jun 2025 – Jul 2025

- Built full-stack applications with React, Node.js, and MongoDB.
- Implemented JWT authentication, reducing report generation time by 20%.
- Delivered responsive UIs using Tailwind CSS.

AI Model Trainer

Outlier, Remote

October 2024 – December 2024

- Refined 100+ AI prompts, improving model accuracy by 25%.
- Streamlined debugging, saving developers 10 hours/week..

Junior Navigation Officer

South African Navy, Simon's Town

January 2015 – July 2021

- Optimized voyage plans, reducing fuel consumption by 10%..
- Conducted weekly navigational equipment audits, reducing downtime incidents by 15%.
- Mentored 5+ junior officers, fostering safety and learning culture.

EDUCATION

Occupational Certificate: Software Engineering (NQF Level 6)

CTU Training Solutions, Polokwane

Graduation: 2026

IT Programming Foundation (NQF Level 4)

CTU Training Solutions, Polokwane

Graduated: 2024

SKILLS

- Languages: JavaScript, TypeScript, Python, C#, C, SQL
- Frontend: React.js, HTML5, CSS3, Tailwind CSS, Bootstrap, Vite
- Backend: Node.js, Express.js, ASP.NET Core, .NET, Prisma ORM
- Databases: MongoDB, SQL Server
- Mobile Development: Flutter, Dart
- Cloud & DevOps: Microsoft Azure (Functions, DevOps, AKS), Git, CI/CD, Docker, Terraform
- APIs & Tools: RESTful APIs, Google Maps API, Stripe, Email APIs, AJAX
- AI & Automation: Prompt Engineering, Dataset Creation
- Soft Skills: Problem-Solving, Team Collaboration, Fast Learning, Communication

CERTIFICATIONS

- Microsoft Certified: Azure Developer Associate (AZ-204)
- Microsoft Certified: Azure Data Fundamentals (DP-900)
- SheCodes: Basics, Plus, Responsive Web Development
- Techbridle Foundation: Software Development Bootcamp

ACCOMPLISHMENTS & AWARDS

- Programming Foundation Top Performer – CTU Training Solutions (2023)
- Completed J.P. Morgan Midas Core Software Engineering Simulation – Forage (2025)
- Winner, AIMS Hackathon 2025 – Best Team in Application & Visualisation for Stakeholder Use

PROJECTS

AI Compliance Interrogator – AIMS Hackathon 2025 (Firefly Team)

- Developed an AI-powered tool to help organizations identify and prevent human trafficking.
- Features: Automated data analysis, NLP using OpenAI API, interactive React dashboard, notifications, and summaries.
- Backend & Cloud: .NET with SQL, hosted on Azure for scalability and secure data handling.
- Technologies: React, TypeScript, .NET, SQL, Python, OpenAI API, Azure.
- Outcome: Won "Best Team" and recognized for practical social impact.
