SUMMARY

Motivated Software Engineering graduate specializing in full-stack development, cloud technologies, mobile app development, and AI-assisted engineering. Skilled in building scalable applications using React.js, Node.js, ASP.NET Core, and Flutter, with practical experience deploying solutions on Azure and working with modern DevOps workflows. Completed Work Integrated Learning at Coast IT (PTY) Ltd, where I gained hands-on experience in software development, debugging, testing, and Agile collaboration. Recognized for fast learning, problem-solving, and delivering clean, efficient, production-ready solutions.

WORK EXPERIENCE

Software Engineering Intern — Coast IT (PTY) Ltd, Remote Nov 2025 – Dec 2025

- Developed mobile applications using Flutter for cross-platform deployment.
- Contributed to full-stack product features across Agile sprints.
- Strengthened debugging, testing, and delivery practices under mentorship.

Web Developer Intern — CodeCatalyst, Remote Jun 2025 – Jul 2025

- Built full-stack applications using React, Node.js, and MongoDB.
- Implemented JWT authentication, improving reporting workflow efficiency by 20%.
- Delivered responsive user interfaces with Tailwind CSS.

AI Model Trainer — Outlier, Remote Oct 2024 – Dec 2024

- Refined 100+ AI prompts, improving model response accuracy by 25%.
- Enhanced debugging workflows, saving engineering teams an average of 10 hours weekly.

Junior Navigation Officer — South African Navy, Simon's Town Jan 2015 – Jul 2021

- Optimized voyage planning, reducing fuel consumption by 10%.
- Conducted weekly equipment audits, minimizing downtime by 15%.
- Mentored junior officers to improve navigation safety and operational performance.

PROJECTS

AI Compliance Interrogator — AIMS Hackathon 2025 (Firefly Team) [GitHub](#)

An AI-powered compliance tool enabling organizations to identify and prevent human trafficking through automated analysis, NLP-driven insights, and interactive dashboards.

- Implemented NLP processing using OpenAI APIs for summarization and risk detection.
- Designed React dashboard with notifications and real-time insights.
- Developed .NET backend with SQL database, deployed on Azure.
- Winner: *Best Team in Application & Visualisation.*
